256 IDEAS | IDENTITY, MASCOTS, REWARDS

- 28 July 2026 | Commit 56992973e1ef
- Read-only recommendations

Executive summary

THE DECISION

- Champion: Wingman foundation.
- Earned provenance beats a generic rarity ladder.
- Start static, small and tied to verified wing activity.

Product vision

MORE GAME, LESS YELP

- Make wing exploration a visible personal story.
- Cosmetics are the receipt, not the product.

Current codebase

WHAT EXISTS

- One hero mascot asset; fallback registry; motion/accessibility handling.
- Missions, progression, badges, geography, share and feature flags exist.

Existing mascot review

WING-USER.PNG

- 1024 square base with safe contain rendering.
- Suitable anchor, not evidence adults want broad avatar creation.

User problem

IDENTITY WITHOUT CLUTTER

- Recognition for achievement; value before friends; prestige for travelers.

Why it may matter

MOTIVATION

- Visible rewards can make real exploration memorable.
- Profile and recap surfaces can create optional sharing.

Why it may fail

FOCUS

- Childish visual language, inventory bloat, scarcity or commerce reduce trust.

Panel composition

15 LENSES

- CEO, CMO, VP Growth, Product Manager, Behavioral Psychologist / Mobile Game Designer
- Senior Mobile Engineer / CTO, UX and Accessibility Reviewer, Privacy and Safety Reviewer, 22-year-old college user, 35-year-old golfer / social-outing user
- New user with no BuffaGo friends, Power user / wing traveler, Restaurant owner or local partner, Casual user, Parent reviewing the app

Method

TOURNAMENT

- 256 ideas, four regions, 255 single-elimination matchups, 15 votes each.

Scoring

100 POINTS

- Identity/value/retention/differentiation/wing fit plus readiness, safety and measurement.

Regions

COVERAGE

- Mascot and Visual Identity
- Progression and Rewards
- Profiles and Collections
- Personalized Experience

Round results

BRACKET

- 256 -> 128 -> 64 -> 32 -> 16 -> 8 -> 4 -> 1.

Sweet 16

SURVIVORS

- Foundation, layer rig, weekly rewards, collection/provenance, static access, ledger.

Elite 8

CONSTRAINTS

- Provenance beat rarity; static-first beat animation; optionality beat pressure.

Final four

FINALISTS

- Wingman foundation
- Layered 2D cosmetic rig
- Weekly mission cosmetic
- Collection cabinet

Championship

WINNER

- Foundation won: system promise, mission/progression fit, cold-start value.

Tournament champion

WINGMAN FOUNDATION

- A default Wingman becomes a record of real wing exploration.

Runner-up and dissent

LAYER RIG

- Rig is a prerequisite. Sharing advocates want visibility early; CTO requires staged scope.

Lost ideas worth merging

KEEP

- Provenance nameplate, static celebration, entitlement ledger, no-marketplace rule.

Rejected ideas

NO

- Paid cosmetics, crates, UGC, referral farming, avatar store and saturation.

Recommended system

BUFFAGO WINGMAN

- Explore -> verify -> earn -> equip -> share.
- No friends required; no functional advantage.

Mascot experience

STATIC FIRST

- Default Wingman; one to three curated slots; earned reasons always visible.

Taxonomy

RESTRAINED

- Launch: shirt, hat, accessory, background, frame, nameplate.
- Defer bodies, shoes, handhelds and animation.

Reward sources

MEANING

- Ratings, missions, crawls, geography, milestones and transparent events.

Weekly missions

RETURN LOOP

- One rotating reward, verified completion, no random crates.

Profiles and leaderboard

VISIBILITY

- Profile hero first; compact leaderboard marker and provenance tooltip.

Social and sharing

OPTIONAL

- Crawl recap and challenge winner cards; never friend-gated rewards.

Collection/provenance

STORY

- Earned-by labeling; permanent achievements; seasonal archive.

Accessibility/safety

NON-NEGOTIABLE

- Static reduced-motion reveal, text alternatives, curated layers, privacy opt-out.

Technical feasibility

FOUNDATION

- Asset manifest, z-index contract, entitlement ledger, projections, flags.

Analytics

PROVE IT

- Earn, equip, impression, share, action; holdout and kill switch.

Phased roadmap

0 TO 4

- Validate; minimum lovable; progression; social; expansion.

Top 10 next items

NOW NEXT

- Research adult fit; catalog policy; layer proof; first reward; weekly reward.
- Then collection, profile projection, ledger, recap, testing.

Risks and kill criteria

PROTECT CORE

- Kill if it harms exploration, accessibility, trust or cannot demonstrate lift.

Final recommendation

SUGGESTIONS ONLY

- Validate a small, earned, provenance-first Wingman system.
- Do not implement broad avatar commerce or social pressure.
